Education

University of Waterloo — Waterloo, ON
Bachelor of Computer Science (Co-op), Computational Mathematics — *Expected 2031*

Delhi Public School – Modern Indian School — Doha, Qatar
CBSE Senior Secondary, Computer Science — *Graduated 2026*

Projects

CircuitGuard | *Python, FastAPI, React, Three.js* — Sep 2026

- Real-time Formula 1 safety system: analyses live driver telemetry to detect crashes and stopped cars on the racing line and recommends the FIA response (safety car, VSC, red flag) under the 2026 sporting regulations.
- Models per-sector spectator risk with a Bayesian Monte Carlo insurance-pricing model, so premiums can reflect each track section instead of a blanket rate.
- Python/FastAPI backend on the OpenF1 API, FAISS semantic search over FIA regulations, faster-whisper radio transcription, Next.js/React 3D track view.

Whisper Chain | *Godot 4, GDScript* — Oct 2026

- Puzzle game where each villager garbles a message (reverse, swap, double, drop a word); players route the message so the distortions cancel, discovering inverses and non-commutativity.
- Graph solver (DFS over simple paths) finds every correct route, sets par and powers live hints; used to design and validate all 10 levels.

Continental Smash | *Godot 4, GDScript, GLSL shaders* — Oct 2026

- Local two-player game where drifting continents ram each other to raise mountains and shove the rival into an ocean trench.
- Custom shaders for the planet, ocean, terrain and clouds, a narrated cinematic intro, particle impact effects and an Inspector-tunable ruleset.

MUN Chair Toolkit | *TypeScript, React, Vite, Tailwind, Zustand, Dexie* — Sep 2026

- Committee-management app for Model UN chairs: committee and agenda setup, bulk delegation entry, and roll call with Present, Present and Voting, and Absent states.

Door Occupancy Counter (in progress) | *Python, SQLite, JavaScript, TensorFlow.js* — Oct 2026 – Present

- Counts people entering and leaving each door from two-beam sensor events (direction from beam order), keeping a live headcount with no manual logging.

Experience & Leadership

Waterloo Student Design Teams — Sep 2026 – Present
Member: WARG, UW Orbital, UW Game Dev — *Waterloo, ON*

- Waterloo Aerial Robotics Group (WARG): member of the Autonomy and Embedded Flight Software sub-teams.

DPS-Modern Indian School — May 2025 – Jun 2026
Director of MUN & Electoral and Democratic Club — *Doha, Qatar*

- Led the school's Model UN program: organized conferences, trained delegates in research, procedure and resolution drafting.

TEDxYouth@DPSMIS — Sep – Dec 2025
Head of Marketing — *Doha, Qatar*

- Led branding, social media and promotion for a TEDx-licensed youth event (11th edition, "Flip the Narrative").

Hackathons & Awards

- 8 hackathons, 5 won, 1 organised: FormulaTech Hacks 2026 (Waterloo; Winner, Ampere: AI for Motor Safety), RevenueCat Shipaton, OpenCV AI Competition (AWS), Nebius x NVIDIA Global AI Hackathon, IBM BOB 2.0 (all 2026), DPS MIS Doha (2025), Birla School (2024), CMU Qatar (2023).
- Gold Medal of Distinction, International Informatics Olympiad (2023-24); Bronze (2024-25)
- Gold Medal of Distinction, National Science Olympiad
- Six Best Delegate awards across 8+ national and international MUN conferences

Technical Skills

Languages: Python, JavaScript, TypeScript, GDScript, C, SQL, HTML, CSS

Frameworks: React, Vite, Tailwind CSS, FastAPI, Node.js, Express, Hono, Godot 4, Zustand

Tools: Git, GitHub Actions, SQLite, IndexedDB, Render, Redis, Reddit Devvit, Claude API, PayPal REST APIs
