RUSHIL BARVE

Hackathon Builder · CS & Computational Mathematics @ UWaterloo

About Me

Olympiad-level problem solver who builds fast, pitches clearly and leads teams under pressure. Eight hackathons from high school in Qatar to Waterloo.

LOCATION
Waterloo, Ontario

Skills

LANGUAGES
Python, JavaScript, TypeScript, GDScript, C, SQL, HTML, CSS
FRAMEWORKS
React, Vite, Tailwind CSS, FastAPI, Godot 4, Zustand
TOOLS
Git, GitHub Actions, SQLite, IndexedDB, Render

Strengths

- Rapid prototyping & shipping
- Public speaking and pitching
- Team management
- Event logistics
- Marketing and branding

Achievements

- Gold Medal of Distinction, International Informatics Olympiad (2023-24); Bronze (2024-25)
- Gold Medal of Distinction, National Science Olympiad
- Six Best Delegate awards across 8+ national and international MUN conferences
- Basketball, CBSE Qatar Clusters: Gold (2025-26), Bronze (2023-24, 2024-25)

PROJECTS

CircuitGuard — Python · FastAPI · React · Three.js
Winner, Ampere – AI for Motor Safety · FormulaTech Hacks 2026

- Real-time Formula 1 safety system: analyses live driver telemetry to detect crashes and stopped cars on the racing line and recommends the FIA response (safety car, VSC, red flag) under the 2026 sporting regulations.
- Models per-sector spectator risk with a Bayesian Monte Carlo insurance-pricing model, so premiums can reflect each track section instead of a blanket rate.

Whisper Chain — Godot 4 · GDScript
Puzzle game built on function composition

- Puzzle game where each villager garbles a message (reverse, swap, double, drop a word); players route the message so the distortions cancel, discovering inverses and non-commutativity.
- Graph solver (DFS over simple paths) finds every correct route, sets par and powers live hints; used to design and validate all 10 levels.

Continental Smash — Godot 4 · GDScript · GLSL shaders
UW Game Jam Fall 2026 entry (theme: Drift)

- Local two-player game where drifting continents ram each other to raise mountains and shove the rival into an ocean trench.
- Custom shaders for the planet, ocean, terrain and clouds, a narrated cinematic intro, particle impact effects and an Inspector-tunable ruleset.

MUN Chair Toolkit — TypeScript · React · Vite · Tailwind · Zustand · Dexie
Local-first web app for Model UN chairs · live on GitHub Pages

- Committee-management app for Model UN chairs: committee and agenda setup, bulk delegation entry, and roll call with Present, Present and Voting, and Absent states.
- Automated quorum, simple-majority and two-thirds calculations, so chairs no longer count votes by hand.

HACKATHONS

FormulaTech Hacks — Winner (Ampere)	2026	RevenueCat Shipaton	2026
OpenCV AI Competition (AWS)	2026	Nebius x NVIDIA Global AI Hackathon	2026
IBM BOB 2.0 Hackathon	2026	DPS MIS Doha Hackathon	2025
Birla School Hackathon — Qatar	2024	CMU Qatar Hackathon	2023

8 hackathons · 5 won · 1 organised

WATERLOO TEAMS

WARG — Waterloo Aerial Robotics Group — 2026
Autonomy team · Embedded Flight Software team

UW Orbital · UW Game Dev — 2026
Student satellite design team · built beginner-level games

Member: Computer Science Club, UW Data Science Club

LEADERSHIP

Director of MUN, DPS-Modern Indian School — May 2025 – Jun 2026

Head of Marketing, TEDxYouth@DPSMIS — Sep – Dec 2025

Head of Operations, DPSDQ MUN — Jun – Oct 2025

Team Leader, Qatar Children's Science Congress — Dec 2024 – Mar 2025
